Ethical considerations

<list down the ethical concerns as listed in your defense form; also include steps made to resolve them>
Human participants who will compare data for validation of research findings:
1. *Consent forms shall be processed first before any data will be gathered from the participants.*
2. *Human participants shall only be above 18 years old.*
3. *On-site participants shall be informed at least a week before data collection.*
4. *Participants can back out at any time during the course of the data gathering session.*

To the best of our knowledge, the ethical issues listed above have been addressed in the research.
